

Product Guide

Transform Your Space

Versatile solutions and design for
spaces and learners of all kinds.

Let's Work Together

- A full line of learning space solutions & alternative considerations
- Design elements
- Live Design
- CEU Courses
- Professional Development
- Guest Speaking
- Coaching
- Pilot Programs
- Case Studies
- Comprehensive Needs Assessments

Alternative Considerations

Research-based designs created to support whole-brain, whole-space, inclusive learning environments.

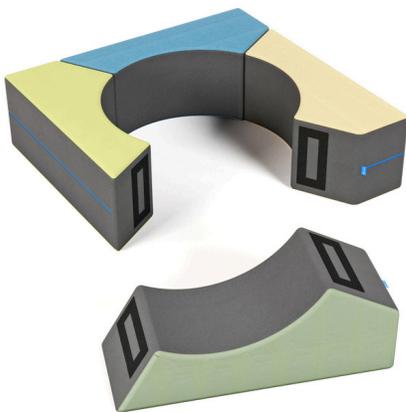

Conclave Rocker

- Provides symmetrical and bilateral movement
- Grounded positioning promotes deep pressure touch due to upholstered all-foam characteristics
- Allows for upper & lower body integration with repositioning of product

CrashPods

- Gross-motor support: jumping, bouncing
- Provides deep pressure touch support when landing on product surface

FlexPod

- Upper & lower gross-motor to compile, deconstruct, and reorganize
- Vertical product integration requires constructing for balance
- Utilizing individual pieces to break down and build up

Grassy Collection

- Turf texture provides 'grass' sensory opportunity
- Grass-ripping: number one stim for those with ASD (autism spectrum disorder)
- Dome shape allows for multi-use & developmental appropriateness
- Laying on stomach offers compression & on back offers spine decompression

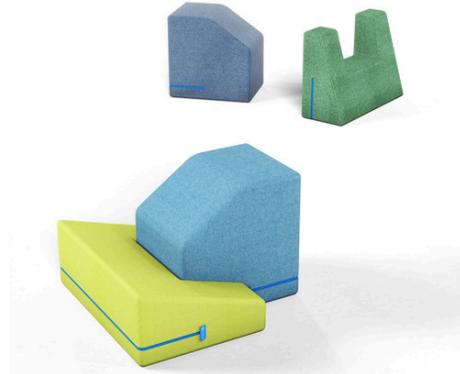

Alternative Considerations

Research-based designs created to support whole-brain, whole-space, inclusive learning environments.

IncuPod

- A small learning pod in a larger learning space.
- It is perfect for a quiet learning or studying space.

KneeOtt

- With core stabilization and spinal decompression at the forefront
- A combination of puzzle pieces which offer physically appropriate support to learners
- Used together or separate, KneeOtt offers various positioning reinforcing basics such as circulation and comfort
- Encompasses a holistic approach to differentiated seating.

NorvaBoard

- Offers joint support for ankles, knees, & hips
- Allows for postural stability support
- Promotes core stabilization with balance opportunities

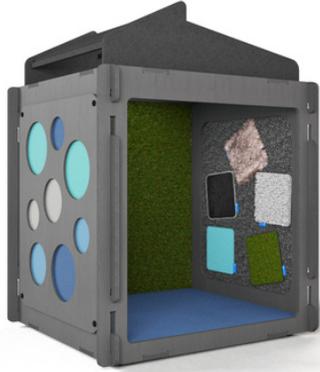

RockerOtt/RockerOtt.10

- Allows for user choice regarding input/output
- Provides symmetrical and bilateral movement positions
- Provides postural stability supports
- Allows for upper & lower gross-motor output due to product composition

Alternative Considerations

Research-based designs created to support whole-brain, whole-space, inclusive learning environments.

SereniCube

- Designed with cognitive diversities, psychology, and development considerations.
- Introduces a blend of textures, visual stimulus, and audio integration an all-encompassing unit providing support to the parasympathetic nervous system.

TacTiles

- Each chosen texture supports processing styles.
- Textures can be emphasized as curricular supports in numerous ways: sensory walls, individual need, whole room solution, fixed with specific pieces etc.
- 2022 Product Innovation Award (3rd Place)

Tiny Room

- Supports sensorimotor stages of development.
- Makes object discovery, reverberation, and sound more accessible for exploration.

Pedagogy Furniture Yoqui

- Provides opportunity for symmetrical & bilateral movement
- Using muscle groups at hip for balance and core engagement
- 2023 Product Innovation Award (3rd Place)

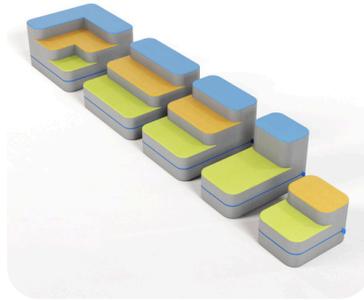

Newest Innovations

Adapting to the ever-changing circumstances and remaining relentless in our pursuit of innovation for the advocacy of each learner.

NorvaNivel AmiNals Series

The innovative collection that brings animals to life in functional form. Each piece is expertly crafted as an interlocking puzzle, allowing individuals to assemble and reassemble. AmiNals combines sturdy construction with imaginative shapes.

NorvaNivel Arena Series

The Arena Series' lightweight foam construction allows anyone—from young children to seniors—to reshape their environment independently; encouraging collaboration in spatial design.

NorvaNivel EduFlex

The mobile whiteboard that works twice as hard. One side features a dry-erase surface for brainstorming, lessons, morning meetings, and presentations. Flip it around to reveal soft loop fabric, perfect for Velcro-backed materials, anchor charts, displaying work, and interactive displays.

NorvaNivel EZTeach

EZTeach is the all-in-one lectern that supports facilitators from preschool through higher education. This versatile station adapts to all needs, all spaces, and all styles.

NorvaNivel PebbleOtt Series

All-foam ottomans designed with irregular, pebble-like shapes that create visual interest and versatile seating arrangements.

NorvaNivel PopStack

Playful, adaptable furniture transforming learning spaces indoors and out. Its hands-on assembly develops problem-solving and communication skills while creating inviting, stackable configurations for endless spatial possibilities.

Newest Innovations

Adapting to the ever-changing circumstances and remaining relentless in our pursuit of innovation for the advocacy of each learner.

NorvaNivel Scofa Wrap 2.0

Reinvent any Scofa Single or Double with Scofa Wrap 2.0—the innovative over-the-back wrap that creates instant privacy, comfort, and acoustic control.

NorvaNivel FloatzPod

A pod-like cove presenting gentle oscillatory movement that promotes focus and engagement. Soothing motion supports active learning while encouraging natural body movement.

Pedagogy Furniture STEAM Deck

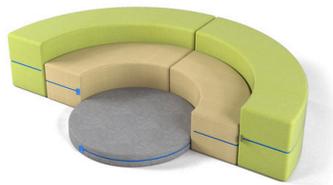

Bring warmth and inspiration to a makerspace or collective area with STEAM Deck—the collaborative table that combines rustic charm with functional design.

NorvaNivel Seating

Seating solutions to meet the needs of each and every learner.

Amphi Series

Designed for use in multiple configurations. Ideal for any learning environment.

Conclave Series

A versatile collection that caters to multiple learning styles.

Pedagogy Tables & Desks

From contemporary designs to classic styles.

Spyro Collection

High-end and sophisticated, the SPYRO Teacher Desk Set is perfect for having personal desk space and a mobile lectern to instruct from different areas with ease. This high performing solution allows you to make your space look and feel any way you want.

Tropea Administrative Desk

This desk brings an urban industrial edge to work or study spaces. A solid manufactured wood top wrapped in a warm veneer makes a handsome space for writing, crafting, or laptop work. Crafted from sturdy made-to-last iron tubing, the clean-lined cantilever base offers plenty of space for a desk chair with lots of leg room.

Vasto Cafe Tables

Whether you're opening your first restaurant, providing new tables for your chain, or wanting reliable and attractive tables for any dining space, VASTO has the size and style you're looking for.

Wally Wall Hoody

Whether implemented as an intervention cove, trial area, assessment spot, or smart learning space – Wall Hoody's uses are seemingly endless. Providing acoustical/visual regulation and spatial adaptability, Wall Hoody is a simplistic way to differentiate any learning environment.

Wally Wall Mount System

The Wally collection is designed to create touchdown space inside and outside of the classroom. Transforming areas in the commons area, hallways, cafeterias, and classrooms to provide a perfect space for students and staff to use collaboratively and independently.

Discover Whole Space Design

Nothing moves us more than creating learning spaces that move them.

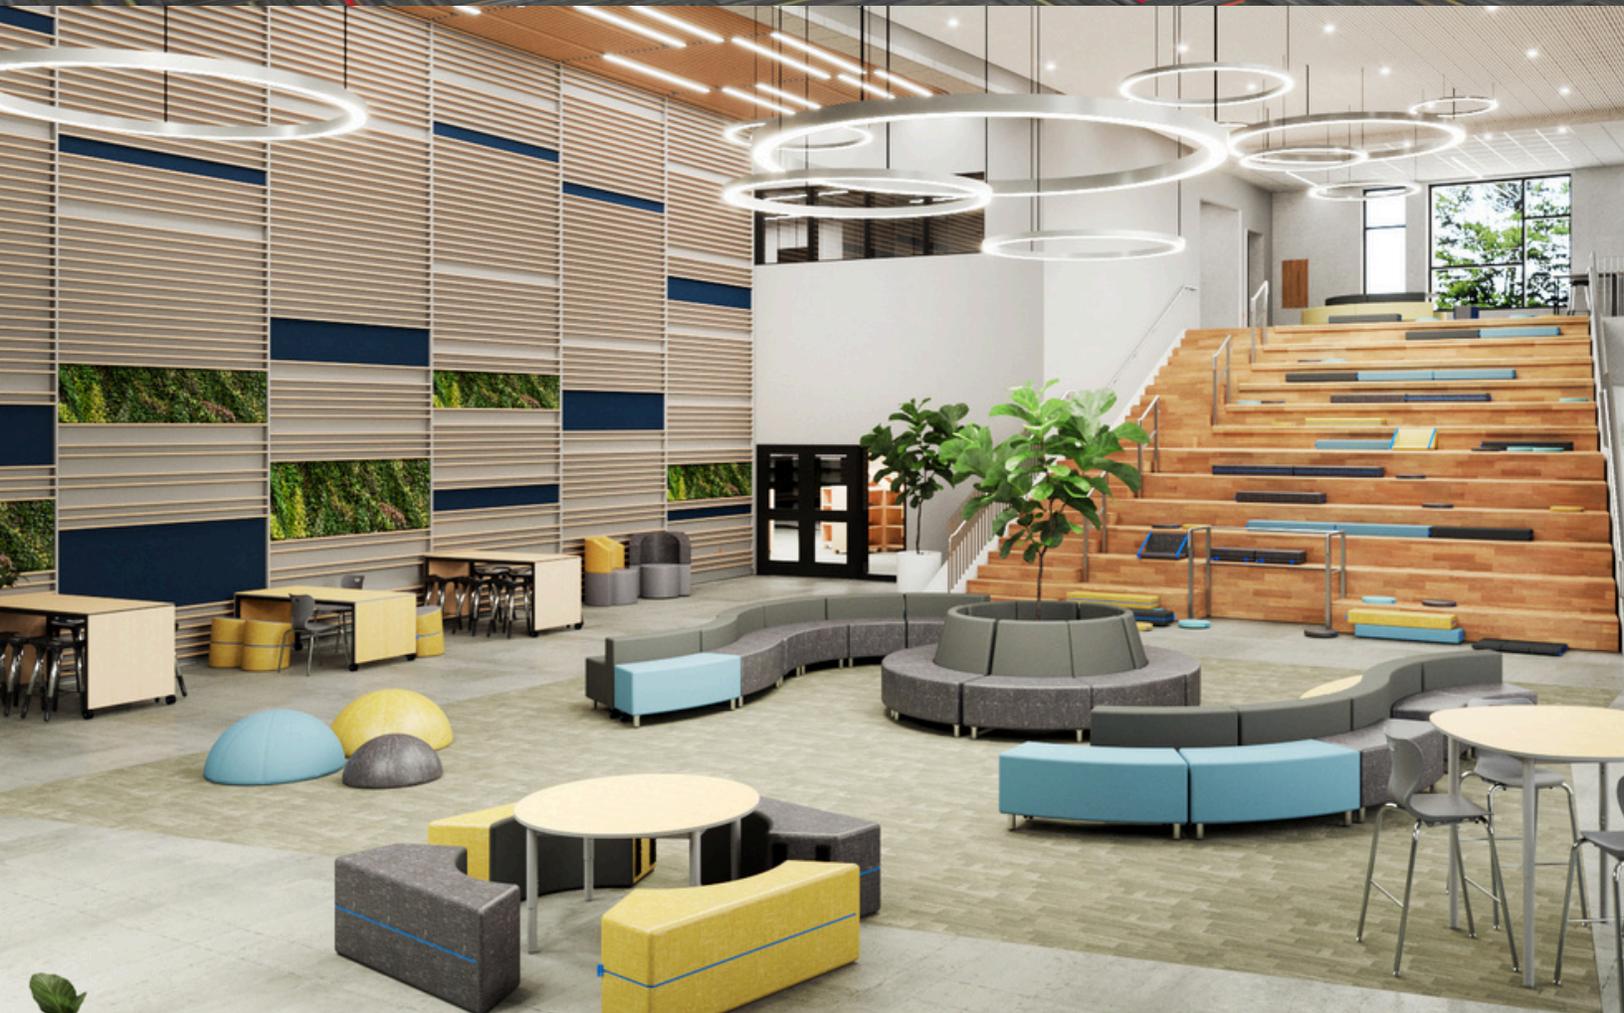

We design, manufacture and create complete and innovative school spaces that allow every learner to flourish, while helping educators manage a neurodiverse student population. We do this with unique furniture, contemporary acoustics, graphics and lighting. Really everything that is in a school space. We are the most innovative, the thought leader in educational spaces.

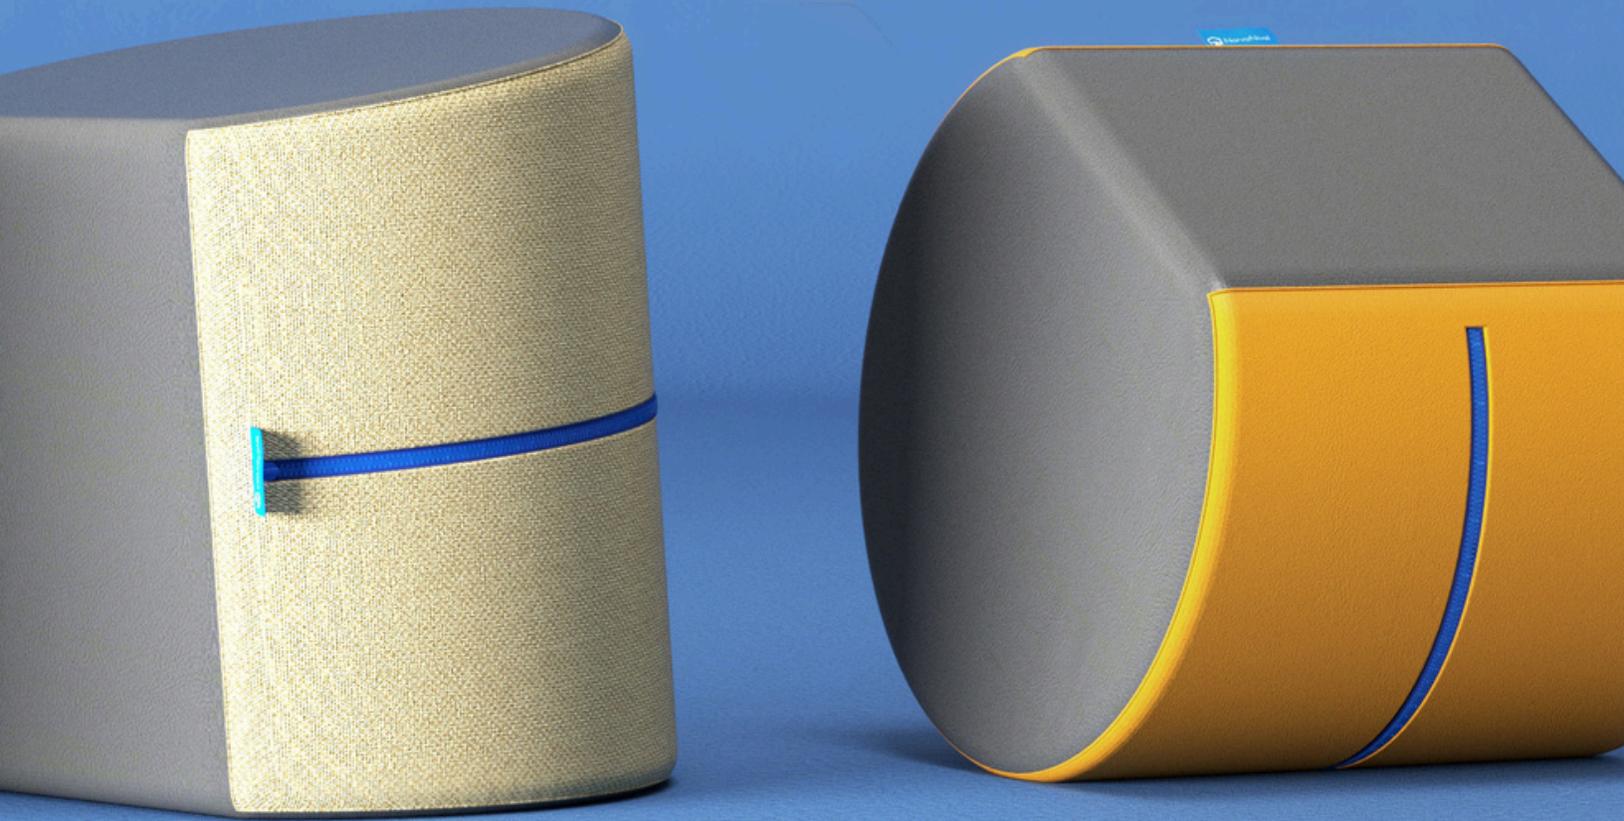

A FAMILY OF BRANDS
